

Position: Junior/Intermediate Environmental Professional

Masse Environmental Consultants is a Nelson B.C. based company that provides environmental consulting services to the mining, forestry, hydropower, construction and government sectors. We are looking for a junior/intermediate environmental professional. The successful candidate will be involved in a variety of projects, with a focus on aquatic assessments, water sampling, and environmental monitoring. The successful candidate would also be expected to support a wide range of other projects as required.

The ideal candidate will meet the following criteria:

- 3-5 years of experience in aquatic assessments.
- Experience conducting water or biological sampling.
- Experience conducting environmental monitoring and compliance inspections.
- Experience implementing restoration projects.
- Proficient fish ID skills and fieldwork experience.
- Knowledge of provincial and federal environmental legislation.
- Experience preparing environmental permit applications.
- Post-secondary degree in an environmental related field.
- Electrofishing certification and OFA level 1.
- Have excellent oral and written communication skills.
- Proficient with word processing and data management software.
- Capable of preparing technical and scientific reports and proposals.
- Willing to work extended hours if/when required.

Assets.

- Plant identification and terrestrial assessment experience an asset.
- Eligible to obtain professional designation (R.P.Bio., P.Ag.).
- Eligible for funding under ECO Canada's Environmental Wage Funding Program (<http://www.eco.ca/wage-subsidy-programs/im-a-job-candidate/>)

To apply for this position, please submit a resume and cover letter to: info@masseenvironmental.com by April 6th, 2018. Only qualified individuals being considered for the position will be contacted for an interview.

Thank you for your interest!
