

Masse Environmental Consultants is a Nelson based company that provides environmental consulting services to the mining, forestry, hydropower, construction and government sectors. We have a summer student position available to assist with a variety of field and office work this summer including environmental assessments, baseline inventories (fisheries, vegetation and water quality/quantity) and monitoring. This position is funded by Columbia Basin Trust Summer Works Program.

The ideal candidate should meet the following conditions:

- Live in the Columbia Basin
- Completed the first year of a technical diploma or second or third year of a university degree
- Must be registered as a full time student in the spring and fall of 2018
- Have good oral and written communications skills
- Proficient with word processing and data management software
- An understanding of study design and analysis
- Must be willing to travel
- Open to a variety of field work
- Have a valid driver's license
- Ideally would have a valid first aid and electrofishing certification

To apply for this position, please submit a resume and cover letter to: info@masseenvironmental.com by March 27, 2018. Only qualified individuals being considered for the job opening will be contacted for an interview.
